
Family Connections . . . Families & Communities Working Together

*We know that raising a child today
can be a challenge.*

Family Connections offers a variety of services to families with children who live in and around the Westside Empowerment Zone.

Through our work in the community, families have identified that the best way to serve and support them is to offer a combination of individual, family, and group services.

**Family
Connections**
provides services *free of charge*

We will meet with you in your home, our offices, your child's school, the clinic waiting room...whatever works! We will see you each week for up to nine months.

We will work with you and with other people who are important to you in your home, your family, and your community.

We will provide your family with an opportunity to meet with other families to discuss the challenges of raising children today, support one another, and develop solutions.

About Why We Do It

We know that sometimes, families with children need some extra help. This help can take many forms, including individual and group mutual support.

We also want you to help us learn more about how what we do is helpful, or not helpful. We want to learn and grow too.

Call Family Connections to find out more about how we can work together.
